

PUNISHMENT FOR THEIR PATRIOTISM

THAT IS WHAT BRAVE SOLD-
IERS WILL RECEIVE.

Members of Congress Who Let Their
Seats to Fight for the Flag Are
Left Out in the Cold—The Law De-
clares Their Offices Are For-
feited.

Washington, Jan. 9.—[Special]—It has just been ascertained that the United States is the only civilized nation which places a ban upon patriotism—that punishes a man for taking up arms in defense of the flag under which he lives. A thorough inquiry into the law has been made, apropos of the cases of General Joe Wheeler, Mr. Campbell and Mr. Colson, who each left their seats in congress for service in the field during the late war; and it has been ascertained that the law is explicit in declaring that they forfeited their seats in the house when they donned the uniform of Uncle Sam. In the case of General Wheeler it is not likely that any hardship will be wrought, as his Alabama constituents propose to give him a unanimous reelection to congress. The others, however, will not fare as well, and are likely to be left out in the cold.

It is said that the committee inquiring into the matter sought some loop hole by which the gentlemen concerned might be enabled to resume their seats in congress, but found none. It therefore transpires that they are out of a job. The country has no further need of their services in the field, and the law decrees that they shall be punished for taking up arms in defense of their country. In all other nations officers of the army are sought for legislative positions, and no one has ever thought of excluding them simply because they were soldiers and patriots.

There is some talk of procuring an amendment of the law applying to such cases, but such an amendment would do the parties named no good, as no law can be made retroactive. The predicament in which the soldier-statesmen find themselves will have its effect in the future by keeping out of the army men who may be holding civil offices. The hardship would not be as great if the military position they might accept was a permanent one, but in the instance in point there was no thought on the part of either of the men concerned to enter the army permanently. It was an emergency call that induced them to enlist, and they sacrificed much in the matter of salary as well as ran the risk of death in battle or by disease in a foreign clime. It is the opinion of all here that they should have been rewarded rather than punished for their self-sacrificing patriotism.

SEVENTY CARS OF TOBACCO

Shipped From Rock County Saturday
Billed From Edgerton

The shipment of tobacco by Bam-
berger and others, sold to the American
Tobacco Co., spoken of last week in the
Gazette as the largest single leaf tobacco
shipment that ever left Edgerton, was
shipped Saturday, loaded aboard
some seventy cars. It went to Rich-
mond, Va., and Cincinnati via Mil-
waukee and Chicago.

The Milwaukee road handled the ship-
ment, which missed coming through
this city by going to the Cream City via
Milton Junction.

Hog Cholera Costs Millions.

Terre Haute, Ind., Jan. 9.—A bul-
letin issued by the experiment station of
Purdue university is to the effect that
\$90,000 hogs, valued at \$5,000,000, have
died in this state from cholera. The
disease has been general over the
state, but has subsided somewhat at
the present time. During the past two
years the station used 4,300 pounds of
"guaranteed cholera cure," without
finding a practical remedy in any one
of them.

Depends on Congressmen.

Springfield, Ill., Jan. 9.—Gov. Tan-
ner has announced that he will make
no recommendation to the legislature
on the subject of congressional ap-
portionment unless there is a practically
unanimous understanding regarding
this matter among the republicans in
the Illinois congressional delegation
and the republican congressmen-elect.

Declare Quay Is Defeated.

Philadelphia, Pa., Jan. 9.—The op-
ponents of Senator Quay are working
hard and now assert that he is whip-
ped. The anti-Quayites say their cause
has grown stronger during the past few
days, and that seven of the 109 men
who attended the Quay caucus last
week have signified their intention of
voting against him.

Will Move Against Derivishes.

London, Jan. 9.—According to a dis-
patch to the Daily News from Cairo,
Gen. Lord Kitchener, the sirdar, has
decided to send a strong expedition
against Khalifa Abdullah, who is now
in Darfur with a large force of de-
rivishes, and has been taking the ag-
gressive against the local tribesmen.

William Endicott Is Dead.

Beverly, Mass., Jan. 9.—William En-
dicott, aged 100 years, died Sunday. He
was an eye-witness of the engagement
between the frigates Chesapeake and
Shannon, June 1, 1813, and was of the
sixth generation from Gov. Endicott of
the Massachusetts bay colony.

PUTTING IN NEW TURNTABLE

Large Force of Men at Work Today Com-
pleting the Job.

A large force of men were put to work
this morning in the Chicago & North-
western railroad yards putting in a new
turntable that will, when finished, be
one of the most complete of its kind
along the road.

The table which has been in use here
for many years, was found too short to
accommodate the new style of engines,
and a new one was absolutely necessary.
The table now being placed in position
is sixty feet long, and will, when fin-
ished, cost a goodly sum. In the mean-
time the Northwestern road here are us-
ing the table at the Milwaukee road
round-house.

ST. MARY'S CHURCH TO COST \$25,000

ERECT CATHOLIC EDIFICE
HERE THIS YEAR.

Steps Are Well Under Way For Rais-
ing Necessary Amount And \$6,300
Is Now In The Building Fund—
Father Goebel Says the Needed
Cash Will be Raised.

At the close of services at St. Mary's
church yesterday, Rev. Father W. A.
Goebel spoke to the congregation in
reference to the erection of a new Catho-
lic edifice in this city to take the place
of the present church. He asked for
and received most hearty support from
all sides.

That a handsome new church will be
erected here by St. Mary's congregation
there is now no doubt.

The church has made the purchase of
three lots at the corner of Prospect
avenue and Wisconsin street, which
with their present property at the cor-
ner of North First and Wisconsin streets,
gives them ample room for a spacious
structure.

Rev. Father Goebel informed a Ga-
zette representative this noon that there
was now no doubt but what his congre-
gation would build this summer on the
site where the present church stands,
and when completed the new church
would be a credit to the city, and would
cost in the neighborhood of \$25,000.

The annual report of the building
committee shows that there is now in
the building treasury \$6,300. No effort
whatever has yet been made to make a
thorough canvass for the necessary cash,
but one will be made soon personally by
Father Goebel.

The new edifice will in all probability
be built of brick in the Gothic style. It
will be beautifully furnished within, and
the altar will be one of the finest in the
state.

The church will have a seating ca-
pacity of 1,000, and will be complete in
every detail.

Three hundred and fifty families now
constitute the congregation, the present
church being altogether too small to ac-
commodate all who desire to attend.

The general fund now shows all ex-
penses paid and a good balance on
hand. To the building fund \$1,000 has
been added during the past year, and as
the church is possessed of many fam-
ilies who are well off financially there is
little doubt but Father Goebel will have
no trouble in raising the necessary
amount when the work is well under way.

POLL ON RATIFICATION VOTE.

New York Paper Declares Treaty Needs
Twelve More Supporters.

New York, Jan. 9.—A dispatch to the
World from Washington says:

The treaty of peace lacks twelve
votes necessary to the two-thirds re-
quired for ratification. According to a
poll made by a senator opposed to the
treaty the following senators, forty-
eight in number, are all that may be
counted upon as certain to vote for the
treaty: Aldrich, Allison, Baker, Bur-
rows, Cannon, Carter, Chandler, Clark,
Cullom, Daniel, Davis, Deboe, Ekins,
Fairbanks, Foraker, Frye, Gallinger,
Gear, Gray, Hanna, Hasbrough, Kyle,
Lindsay, Lodge, McBride, McMillan,
Morgan, Mantle, Murphy, Nelson,
Penrose, Platt (N. Y.), Platt (Conn.),
Pritchard, Proctor, Quay, Sewell,
Shoup, Simon, Spooner, Stewart, Tel-
ler, Thurston, Warren, Wellington,
Wetmore, Wilson, Wolcott.

The following senators, forty-one in
number, are known to be in favor of
an amendment disclaiming any inten-
tion to exercise permanent sovereign
jurisdiction or control over the Philip-
pines: Allen, Bacon, Bates, Barry,
Butler, Caffrey, Chilton, Clay, Cock-
rell, Faulkner, Gorman, Hale, Harris,
Hawley, Heitfield, Hoar, Jones (Ark.),
Jones (Nev.), Kenney, McLaurin, Mc-
Enery, Mallory, Martin, Mason, Mills,
Mitchell, Money, Pasco, Pitkin, Pettigrew,
Pettus, Rawlins, Roach, Smith,
Sullivan, Tillman, Turley, Turner,
Turple, Vest, White.

SAY M'KINLEY CAN GET PLACE AGAIN

NORTHWESTERN SENATORS
SAY HE IS POPULAR.

No One Need Hope For a Presidential
Nomination if the Present Executive
Is in the Field—His Masterly Man-
agement During Times of Great
Peril.

Senator Francis E. Warren, of Wyom-
ing, and Senator Thomas H. Carter, of
Montana, who was chairman of the Na-
tional Republican committee in the Har-
rison and Reid campaign, were in Chi-
cago, Saturday, on their way to Wash-
ington from their respective homes.

"No one need have any doubt as to
where the northwest will be in the next
presidential campaign," Senator Carter
said. "The people up there have had
their little delirium, some of them were
tempted to wander off after strange
gods, but they are practically all back
in the fold of the republican party
again, and they are going to stay there.
The people have no confidence in the
democratic party ever doing anything
in the way of constructive legislation,
and they have confidence in the repub-
licans in this regard. They are all ex-
pansionists, too. They approve the
course of President McKinley's admin-
istration, and have unquestioned confi-
dence in his ability to meet every ques-
tion which may come out of the new
problems which confront this country."

Senator Warren said: "I do not look
for any serious trouble in either the Phil-
ippines or Cuba. It is possible, and per-
haps probable, we may clash with the
natives; but if the good sense which
thus far has marked American conduct
continues, I believe matters will be ad-
justed in accordance with the new re-
gime without serious friction. It is go-
ing to take the natives some time to
find out just what kind of people we
Americans are, and when they once learn
we are the absolute antithesis of the
Spaniards, that we propose to treat them
with absolute fairness, and to institute a
government which will be freed from the
oppressive features which marked Span-
ish control, I believe they will become
our warmest friends."

FORECAST OF WEATHER

Chicago, Jan. 9.—[Special]—Fore-
cast for Wisconsin:
Increasing cloudiness; probable rain
or snow tonight and Tuesday.

BIG FIGHT AHEAD.

Indiana Senatorial Aspirants Expect
Much Balloting.

Indianapolis, Ind., Jan. 9.—With the
senatorial convention only two days
away, the several candidates and their
managers are very active. Each is put-
ting forth a claim of certain nomination,
but each acknowledges success
will not come until several ballots
have been taken.

The unplugged vote is still the un-
certain quantity in all the calculations,
and none of the candidates is willing
to give a specific statement as to what
his vote will be the first ballot. With
the exception of the undisputed fact
that J. Frank Hanly of Lafayette is in
the lead, nothing is conceded by the
other candidates, and it is freely pre-
dicted that his strength will drop away
after the first ballot, unlike that of
other candidates.

Seek Light on Maine Wreck.

Washington, Jan. 9.—Within two
weeks it is expected that congress will
order an examination of the wreck of the
Maine, lying in Havana harbor. Some
naval officers favor taking the wreck
to sea and sinking it, and are
credited with sharing the Spanish idea
that the disaster of Feb. 15 was due
to an internal explosion.

Speaker Reed is among those who
have been influenced by the internal
explosion theorists and he has ex-
pressed himself firmly as favoring an
unbiased examination of the wreck.
Some officers of the navy will indorse
such an effort. They declare with Mr.
Reed that the government has nothing
to fear in an effort to do justice and
that it is eminently proper that what-
ever can be learned should be learned.

Will Fight Two-Cent Fares.

Indianapolis, Ind., Jan. 9.—A union
meeting of railroad men was held here
Sunday, representatives of the engi-
neers, firemen, conductors and train-
men, with Grand Chief Engineer P. M.
Arthur of Cleveland being present.
The meeting was in the interest of
legislation, and a joint legislative
board was created to lobby the legisla-
ture in opposition to a reduction of
railroad fares to 2 cents a mile and for
the creation of a railroad commis-
sion.

CUBANS ARE TO BE GIVEN POWER

THEY WILL ADMINISTER AF-
FAIRS IN THE ISLAND.

If Found Faithful They Will Have
Absolute Home Rule—Havana's
Sanitary Condition Being Looked
After—Reforms in the Enforcement
of Local Laws.

Havana, Jan. 9.—[Special]—Cuban
array leaders are "coming to their oats"
with encouraging rapidity. They are
beginning to realize that their only
hope of preferment lies in their full ac-
ceptance of the conditions imposed by
the American government. One of the
most important of these conditions is
that the Cuban army must be disbanded
and all its members return to peace-
ful occupations. While the Americans
in occupation have not definitely promised
the Cubans anything, it is understood
that they will "practically" enjoy the
privileges of home rule. Wherever
possible Cuban will be chosen to admin-
ister the offices, acting under Ameri-
can direction, however. Native officials
will preside in the courts, collect the
revenues, and perform all the police
duties on the island, subject to regula-
tions issued from Washington. If they
prove faithful and efficient, they will be
continued in office. They are to be
warned against all acts of tyranny and
oppression, the prevailing inclination of
the race. Gomez and some of his chief
officers express their willingness to ac-
cept these terms, but fears are felt that
they are not sincere in their acceptance,
but hope to entrench themselves in posi-
tions from which they cannot be re-
moved except by force. It will require
a strong arm to hold them in restraint,
and it is feared that it will be impossible
to make them honest under any con-
ditions.

HOUSE-CLEANING IN HAVANA.

The Work of Purifying the City Has Be-
gun in Earnest.

Havana, Jan. 9.—[Special]—The work
of purifying the city has already be-
gun. Naturally the beginning has been
made around the quarters of the Ameri-
can troops, where the sanitary condi-
tions are none of the best. Large gangs
of men have been put to work clearing
away the debris accumulating for years
past, and putting in drainage ducts
wherever they are needed. The work is
to be extended to every part of the city
as soon as possible, and by the time the
yellow fever season arrives next summer,
the germs will not be able to find a
breeding place. The plan adopted is a
comprehensive one, and will include the
thorough drainage of the marshes sur-
rounding the city, and from which much
of the disease has heretofore sprung.
The American officers are confident they
can make Havana one of the healthiest
cities in the West Indies within a few
years.

REFORMS IN HAVANA.

General Ludlow Has Entered Upon a Cru-
ade Against Vice.

Havana, Jan. 9.—[Special]—General
Ludlow will soon issue a decree against
vagraney. Vagrants will be compelled
to work at cleaning the streets. It is
said that Ludlow will take measures to
repress the worst phase of the social
evil here. Several girls under thirteen
years, were found in notorious resorts.
Saturday night the American soldiers
lynched a notorious burglar named
Chinito. The Cubans are hopeful that
General Menocal will be appointed
mayor of Havana.

The composers in the printing offices
have demanded fifty per cent increase in
pay, and threaten to strike today if the
demand is not acceded to.

ANOTHER COMPANY FORMING

Fifteen Have Already Placed Their Names
On the Roll.

This city after all may soon have an-
other military organization. As the re-
sult of the meeting called by Charles L.
Hanson, a paper has been started, and
already fifteen have signed it, and many
more are willing to do so just as soon
as they can get around to it.

The fifteen who have signed are all
ex-members of Co. A. In case a new
company is organized here it is the in-
tention to rent the Armory, if such a
thing is possible; of the Trades Council
for certain nights in the week. That
many here want a new company is quite
evident, and that one will be formed
here in time seems almost certain.

HOAR ON EXPANSION

Massachusetts Senator Delivers His
Long Promised Speech
Against It.

Washington, Jan. 9.—[Special]—Sen-
ator Hoar addressed the senate in sup-
port of Mr. Vest's anti-expansion res-
olution today. He said the lust of em-
pire, in his opinion, was the greatest
danger to the United States. He could
not endorse any policy that threatened
the ruin of his country. "The question
we have to deal with," said the speaker,
"is whether congress may conquer and
govern a foreign nation without its con-
sent. It was a power our fathers
loathed, and it is abhorrent. They did
not mean to confer such power upon
their successors."

WISCONSIN DAIRY INTEREST THRIVING

EXCELLENT CONDITION PRE-
VAILS OVER THE STATE.

More Than One-Fourth of the Cheese
Made in the Country the Product of
Our Factories—Adulteration Pre-
vented by Pure Food Law—A
Source of Great Wealth.

Madison Jan. 9.—Excellent conditions
are shown to prevail in the dairy in-
dustry in Wisconsin, and in the enforce-
ment of the pure food law passed by the
last legislature by the report of State
Dairy and Food Commissioner H. C.
Adams, filed Saturday.

Mr. Adams says the manufacture and
sale of filled cheese, oleomargarine and
adulterated foods has almost ceased in
Wisconsin, owing both to the thorough
enforcement of the laws on the subject
and the disposition of the people to
cheerfully enforce them.

Wisconsin, according to the report,
produces more than one-fifth of the
cheese manufactured in the United
States, and since the filled-cheese law
went into effect the quality of the Wis-
consin product has greatly improved,
until now it is selling in the best markets
as the equal of the cheese made in New
York and Canada.

This is due, in the opinion of the com-
missioner, to the policy of the state in
projecting the dairy industry from in-
jurious competition with adulterated
products.

Green county during the last year
manufactured 10,000,000 pounds of
Swiss cheese, and the state at large
made 15,000,000 pounds of this variety.
This fact is given in the report
to show the magnitude of the industry.

The recent efforts of oleomargarine
manufacturers in Chicago to get their
goods on the Wisconsin markets and
the efforts of the dairy and food depart-
ments to combat it was recited. Mr.
Adams insists that the Wisconsin an-
ti-oleomargarine law of the state is valid
and will be enforced, notwithstanding
the circulars sent out by the manufac-
turers to the contrary.

The fact that the United States su-
preme court has decided the oleomargar-
ine law of Pennsylvania and New Hamp-
shire invalid does not affect the Wiscon-
sin statute, Mr. Adams says. The Wis-
consin statute was drawn along similar
lines to the Massachusetts law, which
has expressly been upheld by the United
States supreme court.

BRIEF FORECAST
OF LEGISLATIONWHAT THE WISCONSIN SOLONS
ARE EXPECTED TO DO.

Many Reforms Will Doubtless be inaugurated—Passes to Public Officials Will be Prohibited—A Uniform Game Law—Rearrangement of Judicial Districts.

The Madison correspondent of the Chicago Chronicle, in forecasting the work of the Wisconsin legislature, which assembles this week, says:

The governor proposes to make his attitude on the questions before the people clearly understood, and will make some recommendations, say the knowing ones, that are hardly to be expected. The feeling is general that the state is on the verge of a new era, and with the dominant party pledged to tax-reform, the abolition of passes and added restrictions on corporations the legislative session about to open will be one of unusual interest.

It is impossible, of course, to forecast just what form legislation on these matters will take. The impression seems to prevail, however, that the Davidson bills for taxing express and sleeping car companies, which were vetoed by Gov. Scofield two years ago, will this year be enacted into law in substantially their old form. The pass question will probably cause more trouble. It is expected that it will come up in various forms and what the attitude of "Antipass" Hall, of Dunn county, and other leaders will be is the cause of much gossip.

Some political prophets assert that nothing will be done with the pass evil until the closing days of the session and that then some sweeping measure will probably be passed prohibiting the giving of passes to anyone. Good lawyers hold that such an enactment would be illegal on the ground that railroads cannot be legally prevented from extending favors to private citizens while they might be public officials. Accordingly those in favor of passes say the law could be taken into the courts and declared unconstitutional.

Many of the legislators are returning their passes and will pay full fare going to and from Madison during the session. 'Tis it was thought would shorten the session by preventing adjournments from Fridays till Mondays, but as the majority of the members live within 100 miles of the capital and can afford to pay fare it is probable the old custom of adjournment will prevail.

But besides the tax and pass reforms many other matters of interest are sure to come up for consideration at least, if not for enactment. The uniform game law proposed by the commission appointed from the states of Wisconsin, Michigan and Minnesota will doubtless be passed. A bill requiring marriage licenses in the state, it is said, is almost sure of passage. Provision for capital punishment makes its periodical appearance at each session. An antitrust law will be proposed and a measure making insanity a ground for divorce is probable.

Amendments will be made to the corrupt practice act, and primaries will doubtless be placed more under the direction of law. The Barbers' union will labor to require an examination and license for barbers. A uniform city charter law with special reference to limiting the life of franchises to twenty years will doubtless be recommended by the committee appointed by the Wisconsin League of Municipalities.

The rearrangement of the Milwaukee judicial districts and the election of senators by popular vote will quite surely be urged for enactment, as well as a modification to the child labor law making it easier to determine the ages of children employed in factories. An appropriation will doubtless be asked for the establishment of a home for a crippled child. At the Chippewa Falls institution only feeble minded children are received, while at the Sparta school for dependents no child is received who is not of good physical development.

There is considerable talk of abolishing the land and railway offices in the capital and bills will be introduced to that effect. Revisions will be proposed to the insurance and banking laws and it is said that Bank Examiner E. I. Kidd is at work on a new banking bill to be submitted in place of the one voted down last fall. A bill fixing passenger fares on railroads to 2 cents a mile is also understood to be ready for introduction.

SURGEON DUNBAR WRITES

Interesting Notes From the Medical Officer of the U. S. S. "Resolute"

The following extracts from a letter written by P. A. Surgeon A. W. Dunbar, U. S. N., now at Havana, to his parents, Chaplain G. W. Dunbar, U. S. A., (retired,) and wife, of this city, will be of interest to many:

U. S. S. Resolute, Havana, Cuba, Jan. 2, 1899—New Year's Day was full of interest to us here. Exactly at the noon hour came down the Spanish flag after four years of occupancy, and was saluted by the guns of our fleet. Ten minutes later we went our flag, which was saluted in like manner. I then went with the commander of the ship to call on General Brooke, and while there he held a review of the U. S. troops, who looked well in their tropical uniforms. They were all volunteers so far as I saw. The reception from the natives was not enthusiastic, on account of the Cuban army not being allowed in the city.

I have met a number of prominent Cubans and all are opposed to the domination of the United States. I think that everyone here is beginning to realize the magnitude of the task that we as a nation have assumed. The city is extremely dirty, sanitary plumbing being unknown, except in some modern buildings. The property that falls to the navy is about the worst in town. The navy yard is situated between a yellow fever hospital and a slaughter house, and has an open sewer within its bounds. Fortunately for us it is winter, and before summer comes, the garrison will probably be composed of immunes. The climate is delightful at present. A norther is blowing now, and the temperature is about 60 degrees. We are moored only a few yards from the wreck of the Maine, and it seems wonderful that any should have escaped from the effects of such an explosion.

HAS BEEN BICYCLE WINTER

Local Wheelmen Have Not Lacked For Good Roads

There has been many a bicycle in Janesville that has not been placed away this winter. The present winter has been an exceptional one in the absence of snow. Since the latter part of October, when there was a good fall for the time of year, up until last night, there has not been sufficient snow to make a day's sleighing, and the winter has nearly half passed. The result of this has been clean, hard roads and clear streets, and the users of bicycles have been in great luck. Even the country roads, in many cases, have been good enough to allow surrounding towns to be reached on the wheel, and some venturesome riders have been seen scorching along with the mercury down to the zero mark. Several cycles have made the trip this winter between here and Beloit.

ERECT HANDSOME DWELLING

The Doctors of Leavenworth, Kansas Will Build Here

Milwaukee avenue is to be beautified this summer by the addition of another handsome dwelling. The Dutton family, who were former residents of this city, and who have of late made their home in Leavenworth, Kansas, have made the purchase of the house and lot at No. 15 Milwaukee avenue. In the spring they intend to move the house now located there and erect a handsome dwelling that will be a credit in every way in that part of the city.

Several other parties in the city are planning on building this summer and the coming season here promises to be a busy one here in the building line.

A NEW TAILORING FIRM

McDaniels & Achterberg Have Leased the Building Opposite Post Office

A lease of the Tallman building opposite the postoffice has been taken by a new tailoring firm, McDaniels & Achterberg. The members are George McDaniels, for years connected with the firm of Foote & Wilcox in this city, but now of Chicago, and Charles Achterberg, of this city. Both are thoroughly experienced, both have strong personal connections in Janesville, and it is safe to assume that the new firm will do a large business.

When arrested Vannice was a member of the army and as such went to Porto Rico with the Woodstock company. BOYCOTT NON UNION
MALTING HOUSESFEDERATION OF LABOR TAKES
FORMAL ACTION.

Brewing Companies That Use Malt Made by Non-union Labor Will Have Difficulty in Disposing of Their Product—Certain Cigar Dealers Also Placed Under the Ban.

At a quarterly meeting of the executive board of the State Federation of Labor held at Milwaukee, recently, resolutions were adopted to wage a systematic warfare against the American Malting company, which has large malt houses in this state, and against the Gerlach Malting companies, on the ground that they are non union malsters. All the unions of the state will be requested to send delegations to the various state breweries asking the brewers not to use the malt manufactured in Milwaukee. This action of the federation does not affect the Milwaukee breweries, which manufacture their own malt.

It was decided by the board to issue 20,000 circulars for distribution in Milwaukee, Kenosha and Janesville, announcing that the Schoenhofen Brewing company of Chicago, uses non-union kegs. A resolution was also adopted at the request of William Straus, of New York, who was present, that the unions of the state be asked not to use the cigars made by Carl Upmann, of New York. Mr. Strauss represents the Cigarmakers' International union.

A meeting of importance to union labor of the state will be held this afternoon at 4 o'clock by the Legislative committee of the State Federation of Labor, which will discuss bills which are to be introduced at the coming session of the legislature. Committees from the Building Trades' Council, the Barbers' union and the Metal Polishers' union will appear before the committee to advocate a revision of the factory inspection law, the passage of an act with reference to scaffolding on new buildings, a law to license barbers and a measure to protect metal polishers from injurious effects due to the use of emery wheels that are not dampened to prevent dust arising from them while in use.

DOING TEMPERANCE WORK

Pastor of St. Mary's Church Secures Several Pledge Signers.

Rev. W. A. Goebel, of St. Mary's church, is doing excellent work in the interest of temperance among the members of his church. A week ago he preached a strong sermon on the subject, and as the result of his appeal for signers of the pledge seventeen attached their signatures to the document.

It is now doubtful if Francis Murphy will be able to deliver another lecture here for the reason that he is engaged to speak at Madison this week. He is still at the Palmer hospital suffering from a severe cold but shows steady improvement.

Of those buried yesterday, ten were under 1 year of age, one between 1 and 20, three between 20 and 30, five between 30 and 50, and four over 50. ART IN THE SCHOOL ROOM

Mrs. J. B. Sherwood, of Chicago, to Deliver Her Lecture Here.

Mrs. J. B. Sherwood, president of the Altrura club, of Chicago, will deliver the lecture "Art in the School Room," next Wednesday evening, January 11th, at 8 p. m. in the High school assembly room. The lecture will be illustrated with many copies of fine art works. Mrs. Sherwood will meet the members of the various women's clubs of the city on the afternoon of the same day. This meeting will be held under the auspices of the Art League. The place of the afternoon meeting will be announced later.

ANOTHER ONE DOLLAR BILL

Will Soon Find Its Way Into the Local Banks.

Local bankers will soon handle a new silver certificate of the denomination of one dollar. The design is a radical departure from the old one. The new certificate was issued by order of the secretary of the treasury, and is both neat and artistic. The American eagle is all that appears in the design. The reason assigned for the modesty of the design is that the old one required too much ink and made the figures and script unintelligible. The new certificate also has a seal which is regarded as much more difficult to counterfeit than the old one.

Coughing injures and inflames sore lungs. One Minute Cough Cure loosens the cold, allays coughing and heals quickly. The best cough cure for children.

GOV. SCOFIELD'S ILLNESS

No Serious Consequences Are Apprehended from His Cold.

Madison, Jan. 9.—Governor Scofield's condition is slightly improved today. Exaggerated reports of his illness have been circulated, but his physicians and Colonel Anderson, his secretary, say that he has nothing more than a severe cold on his lungs. The governor was up most of yesterday, though unable to leave the house, but he hopes to be at his office in the capitol today. Mr. Anderson gave out the following statement:

"Governor Scofield's illness is nothing more than a severe cold on his lungs, which caused his friends some anxiety on account of his general poor health at present. He is not critically ill, or anything of that kind, and will be able to be at his office in a few days. While he has suffered considerable discomfort and pain, there is nothing in his condition to warrant any great anxiety."

The Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Moline, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days by the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting down." For sale by Peoples' Drug Co., corner Main and Milwaukee streets.

SEVERAL GOING FROM HERE

Janesville Will be Well Represented at Edgerton Tuesday.

Several from this city will visit Edgerton on Tuesday evening next to attend the formal opening of The Carlton. One year has passed and the success of the house has been assured. The manager, F. Burt Carr, formerly of the Hotel Myers of this city, is satisfied with the patronage accorded the house, and on the other hand the patrons have nothing but words of praise for the manner in which the hotel has been conducted, the treatment and attention they have received.

Manager and Mrs. Carr have issued about six hundred invitations for a "First Anniversary Ball" to take place on Tuesday evening, January 10, 1899, and it promises to be a most pleasant event. Dancing at 8:30 in Royal hall to music furnished by Prof. Smith's full orchestra.

How the Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds or la grippe. Every bottle warranted. For sale by Peoples' Drug Co., corner Main and Milwaukee streets.

NO PLUMBERS FROM HERE

Are Likely to Attend the State Convention at La Crosse.

Present indications are that Janesville will not be represented at the state convention of the Master Plumbers' association to convene in La Crosse Jan. 10 and 11. It is understood that a special train will be run from Milwaukee on Jan. 9 to carry the master plumbers from that part of the state. Mayor McCord will deliver the address of welcome. On the evening of Jan. 10 a banquet will be rendered to the visiting plumbers.

NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time. The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss Gertrude Sikes, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM:—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhoea. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sensitive Wash has cured me of leucorrhoea. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year. All suffering women are invited to

DRESSED THE TURKEY.

Hulda Was Satisfied With Her Work If Others Were Not.

Hulda was a new arrival in the Hope kitchen, and the mistress thereof was true to her name concerning her.

"I am sure she will be a good cook," Mrs. Hope confided to her husband. "She looks so clean and intelligent; besides, she is so pink and pretty."

"Like a peach tart, herself," supplemented Mr. Hope. When upon his wife observed "I don't know" coldly and changed the subject.

The Hope family are prominent in Washington society, and Hulda's first task was to assist the chef in preparing dinner for a trio of diplomats. It was late in the afternoon when a loud cry startled the hostess to be from a dreamy peace.

"Oh, mon Dieu, zat I mus' saffaire za humeational! Look at Monsieur Le Turk!" cried the chef.

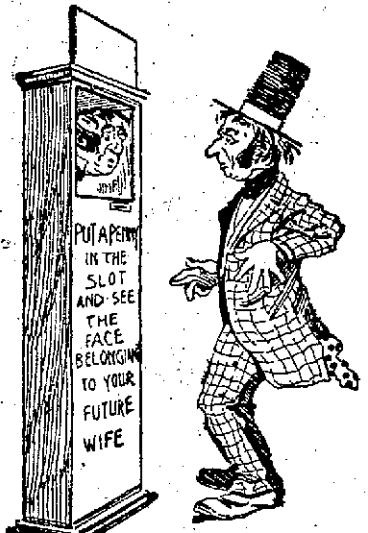

He pointed wrathfully to the turkey in Hulda's hands and Mrs. Hope lost her dignity in one wild shriek of laughter; for a pair of William junior's trousers were pinned about the bird, and a four-in-hand tie ornamented the feathery breast.

"Aye yust vorked tray, four hours an Aye tank des bane pooty gude," said Hulda, with modest satisfaction. "But Aye couldn't fin to clothes t' dress haem en or Aye would bane more soon. Ef Adolph can dress haem batter, all right."—Chicago Journal.

Was Once a Diplomat.

"Didn't you know it is against the law to beg for money?" said the lady to the tramp at the back door.

"I wasn't going to beg for money, ma'am," was the reply of the humble wanderer.

"It's just as bad to beg for bread."

"I wasn't going to beg for bread, ma'am."

"What were you going to beg for, then, pray?"

"Only for one of your pictures, ma'am."—Yonkers Statesman.

The Future.

The congresswoman from the new state of Mississippi now rose and addressed the house.

"I move," she exclaimed, "that all this red tape be dispensed with!"

The motion carried unanimously, but when it was argued that there be substituted heliograph tape with a sea green border difficulties arose.

Glazed Paper and Eyesight.

Some German physicians have concluded that much harm may be done to the eyes by the highly glazed paper used in some modern books. Especially for school children it is believed to be injurious. Reference is made to the books of the last generation, whose unglazed, non-reflecting surface did not fatigue the eyes.

To Bring Bodies Home.

Chicago, Jan. 9.—The bodies of four more members of the First regiment who lost their lives in Cuba will be returned to Chicago for interment in a short time. The dead soldiers are W. Harlan Young of company I, Albert Michelson of company A, Corporal Charles Viberts of company I and G. W. Richardson of company L. The remains will be received by Undertaker A. Van Duser, who went to Cuba a short time ago and brought back the bodies of four First regiment soldiers who died at Santiago.

German Seek Chinese Trade.

Washington, Jan. 9.—The great interest in Asiatic commerce which other nations as well as the United States are now feeling is illustrated in a recent subsidy agreement made by the German government with a German steamship line, by which it proposes to pay more than \$1,000,000 a year for a fifteen-year term for the establishment of steamship lines to ply between its ports and those of Japan, China and Australasia and certain ports of Oceania. Four steamers are, under this contract, to be built for the Chinese and Japanese service.

Alger May Win His Point.

Washington, Jan. 9.—Secretary Alger has made such strenuous opposition to the suggestion that Admiral Dewey be made governor-general of the Philippines and insisted so strongly on the right of the army over the navy in all matters of military rule that he has probably won his point. The idea of making Dewey governor-general found favor generally in official circles because of the executive ability and tact he has shown since he came into control at Manila.

Naval Personnel Bill.

Washington, Jan. 9.—Representative Foss of Illinois, chairman of the naval subcommittee having charge of the naval personnel bill, says the prospects are good that the rules committee will fix an early day for taking up this measure in the house. Mr. Foss' request for a day has been re-enforced by Mr. Bontelle, chairman of the full committee, and Speaker Reed is disposed to give the measure a hearing when the rush of appropriation bills is over.

Piracy by French Blatant At.

Washington, Jan. 9.—Consul Frankenthal, at Berne, sounds a note of warning to American manufacturers who intend to present to the world, at the French exposition in 1900, their best brain efforts and products. He cites a recent decision of the French courts denying protection to a Swiss firm from piracy of its designs, though the latter were registered in France.

St. Paul Is Overdue.

New York, Jan. 9.—The American liner St. Paul, which sailed from Southampton for this port on Jan. 1, at about 1:30 a. m., had not been sighted either at Fire Island or Sandy Hook at 1 o'clock this morning. She had then been eight days out, and is about five hours overdue. Her longest previous voyage was seven days and eighteen hours.

Amour of Afghanistan Dying.

Bombay, Jan. 9.—Dr. Clements, who for some time has been attached to the military service of the ameer of Afghanistan in the capacity of veterinary surgeon, has just arrived here from Cabul, the Afghan capital. He says the ameer is in ill health and cannot be expected to live long.

WINE OF CARDUI

Woman Knows Woman.

ZERICH, KAN., Jan. 8.

I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

THIS DAY IN HISTORY.

1848—Caroline Lucretia Herschel, astron-
omer, died; born 1751.

1878—Napoleon III, ex-emperor of France,
died in exile at Chislehurst, England.
Louis Napoleon was four times exiled
from France. After governing France
for 18 years, first as president, and
then as Emperor Napoleon III, he was
deposed by the disaster at the bat-
tle of Sedan and passed his remaining
days in England.

1890—Hon. William Darrah Kelley, Penn-
sylvania congressman, affectionately
known as the "Father of the House,"
died at Washington.

1896—Archibald Gordon, journalist, critic
and dramatist, died at Port Richmond,
N.Y.

1898—Shepherd Homans, noted insurance
expert, died in New York city.

"LET US HAVE PEACE"

A Democratic View.

Here is a suggestion as to how to
bring harmony about, from one of our
"friends, the enemy." The Madison
Democrat says:

"The Janesville Gazette is out with
an able and conciliatory plea for har-
mony in the republican party. The
lack of harmony in the party is due
mainly to the republican newspapers.
They are not sufficiently civilized. The
vicious factionists are like savages in
continuing to torture their captives.
The vanquished are like those wildest of
savages who, while wounded and dying,
keep on shooting poisoned arrows. The
way to have harmony is to stop com-
ment; stop your malevolent digs at
each other."

Timely and Sensible

Madison State Journal: "The Janes-
ville Gazette, has a lengthy and very
timely and sensible article in which it
urges harmony in the ranks of the re-
publican party. It thinks the time has
come, when factional controversy
should end, and all republicans unite
for the good of the common cause."

Meaning Is the Same

The Milton Junction News evidently
thinks that The Gazette should work
for "the greatest good for the common-
wealth" rather than the "greatest good
of the republican party." Perhaps The
News has not yet heard, however, that
more than 5,000,000 more than a major-
ity of the voters of the United States, in
casting their ballots for President Mc-
Kinley a short time ago, showed that
the people think that "republican prin-
ciple" and the "greatest good for the com-
monwealth" mean exactly the same thing.

With the assistance of the newspa-
pers who abused him so roundly, Law-
rence Y. Sherman was elected as
speaker of the Illinois assembly. The
Chicago papers are a power, but they
must have right on their side in order
to win. Evidently the legislators did
not consider the newspaper articles, for
if they had, Sherman would certainly
have been lynched.

If the ministers who accepted the half
fare permits from the railways were
"bribed," the question naturally arises
"what goods were the ministers expected
to deliver, and were they delivered?"

Col. Bryan will do well to modify his
anti-expansion views, as Boss Crocker
is an "imperialist."

Appleton will build a \$50,000 city
hall.

Animals and Their Toilet.

Cats, large and small, make the most
careful toilet of any class of animals,
excepting some of the opossums. The
lions and tigers wash themselves in
exactly the same manner as the cat,
wetting the dark, india-rubber-like ball
of the forefoot and inner toe, and pass-
ing it over the face and behind the
ears. The foot is thus at the same
time a face sponge and brush, and the
rough tongue combs the rest of the
body. Hares also use their feet to
wash their faces, and the hare's foot is
so suitable for a brush that it is used
to apply "the paint" to the face for
the stage.

Pensioners

The commissioner of pensions re-
ports that the total number of pension-
ers now on the rolls is 1,040,358. This
is the first time that the total has been
above a million names. There were
nearly 84,000 original claims granted
last year, and about 4,000 restorations
to the list. The disbursements during
the fiscal year 1898 amounted to \$144-
551,879.

Inducements.

The following advertisement is from
a paper published in the north of Eng-
land:

"To Let—A house in Melville street,
situated immediately alongside of a
fine plum garden, from which an abun-
dant supply of the most delicious fruit
may be stolen during the season. Rent
low and the greater part taken in
plums."

Berkillon System in Turkey.

The Turkish government has adopted
the Berkillon system of measuring
as a means of identifying criminals;
quarters for carrying it into operation
have been made ready in the prison
of Stamboul, and at the government's
request a French functionary was sent
to set the system into operation.

Would Do For the Boy.

"Why is it you sign your son's name
to that article instead of your own?"
"Well, you see, it is intended for a
magazine."

"What of that?"
"Why, when the magazine gets
around to the point of printing it, I
will be too old for it to be of any ser-
vice to me, while my boy, who was
deemed old enough yesterday to appear
in trousers for the first time, ought to
be just on the threshold of a literary
career, where it may be of some help to
him. To my mind where we are weak
in literature is in not starting in early
enough. A man foolishly tries to make
fame for himself instead of planning to
pass the chance on to his children or
his grandchildren, who might thus get
some sort of a show."—Chicago Post.

WHEN ONE GROWS BALD.

As age creeps upon us we try to stay
young.

And frisky as long as we can
And show to the world by both action
and tongue

We yet are a mighty good man.

We laugh at gray hairs as no token of
age.

But look in the mirror appalled,
As we find we are facing that worrying
stage

When a fellow begins to get bald.

It fastens a look of deep care in the eyes.
It anchors a dread in the soul.
For heavy is the burden we cannot disguise.
A skimming rind on the poll.
The fiend of anxiety tortures the brain.
Our taste for enjoyment is pallid
Our pleasure is tinged with a color of
pain

When a fellow begins to get bald.

We blow in our money for tonics and
creams.

We try all the lotions in sight.
But every preventive we plaster on seems
To hasten the hair in its flight.

We wear out our shoes on the specialist's
stage.

Experts into council are called.
But every day adds to the burden of cares
When a fellow begins to get bald.

We sit away back at the naughty display
Of tights at the high kicking show
Through fear that our friends may in-
humanly say

We've hit the old baldheaded row.
At night our once pleasant, delectable
dreams

By visions of wigs are enthralled;
When walking, the brain with keen mis-
ery teems

When a fellow begins to get bald.

Whenever we meet lady friends on the
street

We blush while uplifting our hat,
And, though they may smile us a greet-
ing most sweet.

We know they have got us down pat.
We seem to care little when to our re-
ward

In the realms of the blest we are called.
For half of the pleasure of living seems
floored

When a fellow begins to get bald.

SPEAKS OF CRITICS AND CRITICISM

REV. MR. KEMPTON DISCUSSES
A CAPTIOUS CLASS.

They Lose Sight of Great Truths While Endeavoring to Find Small Faults—An Endeavor to Exalt One's Self at the Expense of Others.

Mr. Kempton's subject was "Critics and Criticism," his text was in Matt. 7, 1-12.

There are texts of scripture which are like the stars, we never try to reach them. Others are too familiar to be noticed. Others lay hold upon us and benefit us greatly.

1. Jesus speaks of the unbrotherly judgment or criticisms of each other.

Let us take this coat and put it on ourselves, for we criticize as easily as we breathe. There is much thoughtless criticism. Notice that criticism may wound very deeply. There are blows that are not given by men's fists, but pointed tongues, and they can not be taken back.

One of the greatest injuries is the injury that we give to another's character. The philosophy of criticism is that we are trying to exalt ourselves at the expense of our friends, and we generally make ourselves ridiculous by so doing.

It is better to be criticized than to criticize. Let us make these criticisms stepping stones to a higher manner of living. We ought to cast the beam out of our own eye before we try to get moats out of other people's eyes.

Jesus here tells us how to overcome these sins. First, he tells us to pray. The life of prayer is never a life of criticism.

A command is here given, and a promise accompanies it, "Ask and ye shall receive." He also makes an appeal to us to quit criticizing and to ask God to help us to live true and holy lives. He uses parental love to illustrate the Father's love for us. Go to Him and ask, and you will receive strength to overcome the habit of criticism or any other sin.

He closes this passage with the Golden Rule. He would have us put in practice the teaching of His word. May God help us to live in relation to others as we would have them do to us.

In the evening Mr. Kempton's subject was "Knocking at the Door." It was a powerful and pointed sermon. At its close there was a very interesting ten minute after meeting. Several men began a new life.

Next Tuesday Mr. Kempton and delegates from this church will attend the council of ordination at Atton.

CARS JUMPED THE TRACK

Small Wreck in the Local Yards Yesterday Morning.

The five rear cars on the outgoing freight train, yesterday on the Chicago & Northwestern road, jumped the track at the five points crossing in this city, and for five hours the wrecking crew worked hard to straighten matters. Two of the cars upset and were badly damaged, but the other three remained upright after running a distance of several yards.

One car was loaded with cedar posts, and through the roof the greater portion of these went, carrying roof and all. The train was a double header bound for Belvidere, in charge of Conductor Frank Donahue, of Baraboo.

The accident happened at 8 o'clock, and by 1 o'clock the track was cleared. No one was to blame.

FILLED TWO ICE HOUSES

Commenced Work Today of Filling the Third and Last.

The People's Ice company have finished filling their two large ice houses on North Main street with several hundred tons of ice.

Today they commenced the work of filling their third and last house, which is located a half mile north of the houses just filled, and the job will take some days.

Many farmers have commenced coming to town for ice, which they store for present and summer use.

The ice crop is unusually fine this year both in thickness and quality.

ROBBED A HOTEL EMPLOYEE

One of the Hotel Myers Servants Loses Eleven Dollars.

While Miss Gussie Gallagher was enjoying her evening meal last night at the hotel Myers some one entered her room on the third floor and stole \$11 in cash. That many she kept in a bureau drawer, and the thief gained an entrance over the transom, plainly leaving the finger marks of his dirty hand on the wood work.

Chief Hogan investigated the case today. An employee of the hotel is suspected, and the guilty party may soon be arrested. Miss Gallagher is employed at the hotel.

The injured brother, who was badly stabbed in the abdomen, has showed marked improvement of late, and it was thought last week that he would be able to appear today.

Sandoval Strike Ended.

Carlisle, Ill., Jan. 9.—Saturday afternoon Senator Charles E. Hull, general manager, and Lloyd Middleton, superintendent of the Sandoval Coal and Mining company, held a conference with the miners in Sandoval and effected a compromise with them. As a result work was resumed in the shaft there this morning. The men will be paid according to the Springfield scale and the operators will abide by the Chicago agreement. Last March the miners laid down their tools because the company refused to operate according to the scale as determined upon at Springfield. The loss to the strikers in wages will amount to over \$50,000.

The police are wholly at sea regarding the crime. It is not known just how much money was taken, but it is thought the robbers got about \$500.

Santiago Wants Autonomy.

Santiago de Cuba, Jan. 9.—The excitement caused by Gen. Brooke's order that customs receipts at this port be sent to Havana still continues, notwithstanding the suspension of the order last Thursday. Mayor Bacardi telegraphed the mayor of Havana that the situation was serious, and that the citizens of Santiago would not be satisfied with anything short of entire provincial autonomy.

No Short-Haired Barbers.

The Berlin Guild of Barbers has issued a broadside against employees and apprentices wearing close-cropped hair. At a recent meeting of the guild it was declared, upon the suggestion of the worthy Herr Obermeister Wohl-schlager, that a young hair-dresser "ought not to have his own hair dressed after the fashion of a rat, but to exhibit a tasteful, elegant and scrupulously careful appearance."

A Millionaire's Fate.

An American millionaire who has a palace at Venice is more superstitious than his countrymen usually are. Recently he invited to a dinner party of friends, including a Roman prince, one of the queen of Italy's maids of honor, and various sprigs of Italian aristocracy. The Roman prince, however, failed him at the last moment, and the host refused to sit down to dinner on finding that the company consisted of thirteen persons. He made various fruitless attempts to secure another guest, and at last in despair, he announced that he intended to follow the custom of the Arabs, who always wait upon their guests, and eat their own dinners by themselves afterward. The meal proved a great success.

Smothered in a Few Inches of Dirt.

A coroner's jury, in an Iowa town recently returned a verdict that a man found dead was "smothered to death in the dust of the public highway." The man was a ranchman, who left the town for his home, some miles distant, in the hottest part of the day. A mile from town he was overcome by the heat, and possibly by his potatoes, and fell from his horse. The dust at this place was several inches deep and very fine. The man fell on his face and was unable to turn over.

BREWER, ARRESTED ON LARCENY CHARGE

FARMER ROBBED OF SIXTY DOLLARS.

Constable Jones, of Orfordville, Brought the Prisoner Here Saturday Evening And Lodged Him in Jail—Will be Given Hearing On Wednesday—Looks Like States Prison.

Constable Jones, of Orfordville, arrived in the city Saturday evening, having in charge J. Brewer, who is now occupying a cell in the Rock county jail on the charge of grand larceny. The prisoner is charged with having helped himself to \$60 in cash that it is alleged he took from the person of a farmer by the name of Noonan, who resides near Orfordville.

When seen at the jail Brewer had but little to say other than that he would explain matters satisfactorily when the proper time came.

The prisoner is a middle aged man who has been working about Orfordville where he is well known. It is alleged that several weeks ago he and Noonan went out together, and that while Noonan was asleep Brewer picked his pocket of sixty dollars.

Soon after committing the alleged crime Brewer made good his escape, and for the past three months his whereabouts have been a deep mystery.

Probably thinking that the matter had been forgotten Brewer returned to Orfordville only to be placed under arrest. Parties interested in the case say that they have sufficient evidence to send him over the road.

On next Wednesday he will be taken to Orfordville, and given a hearing.

LATE NEWS BY TELEGRAPH.

FOUR KILLED, TWO WOUNDED.

Head-on Collision on Southern Railway in Tennessee.

MISUNDERSTOOD THE ORDERS.

Regular Passenger Train and a Double-Header Freight Come Together on the Same Track—Fire Results from Explosion of an Oil Tank.

Chattanooga, Tenn., Jan. 9.—Near Elk Valley, Tenn., on the Knoxville and Ohio branch of the Southern railroad, at 11 o'clock Sunday morning a head-on collision occurred between the regular passenger train and a double-header freight train.

The killed are: ENGINEER J. D. MOXEY, passenger train.

FIREMAN JOHN READDY, colored, passenger train.

FIREMAN ALONZO HOOVER, colored, freight train.

FLAGMAN W. A. DILLON.

Fireman Huskisson is fatally injured and Engineer Goff of the freight is seriously cut and burned.

Both trains were under full headway, the passenger being fifteen minutes late, having waited for a connecting train at Knoxville, and was running at the rate of thirty-five miles an hour when the collision occurred.

The passenger train had the right of way, and all freights were ordered to sidings.

Engineer Goff evidently misunderstood his orders. An oil car was next to the engine of the freight, and the contents of the tank exploded, setting fire to the wreck.

Four freight cars and two passenger coaches were burned, entailing a loss of \$25,000. There were about twenty passengers on the train, but none were seriously injured.

Knoxville was telegraphed to send a fire engine to the wreck, and after several hours' work the fire was subdued.

Engineer Moxey was pinned under the engine and burned and scalded to death.

The collision occurred in an out-of-the-way place, and it was a difficult matter to get assistance. The bodies of the dead and the two injured trainmen were taken to Knoxville.

MINERS AT PITTSBURG.

Annual Convention Meets—Important Work to Be Done.

Pittsburg, Pa., Jan. 9.—The annual convention of the United Mine Workers of America, which was called to order this morning in the city hall in Pittsburg, will, it is said, go down in history as the most important meeting that the organization has ever held. There are nearly 700 delegates in the convention, representing, with few exceptions, every coal vein that is being operated in the country. Besides the delegates from Illinois, those who have already arrived are from Utah, Colorado, Montana, Iowa, Kentucky, Alabama, Virginia, West Virginia, Ohio and Michigan.

Clemency to Bank Wrecker.

Fort Scott, Kan., Jan. 9.—Gov. Leedy has commuted the sentence of J. R. Coleman, who, while cashier of the state bank here in 1895, stole \$52,000 of its funds, wrecking the bank. His sentence of five years was reduced to four, and he will, under the good behavior rule, be out in about three months. The announcement of the commutation here created indignation among the stockholders and depositors of the bank.

Cyclones Sweep Arkansas.

Little Rock, Ark., Jan. 9.—A heavy windstorm swept over a remote section of Scott county Friday. At Boles a schoolhouse was blown down and three pupils were killed, another was fatally wounded and twelve or more sustained more or less serious injuries. Those killed were the children of Joseph Lawrence, Mr. Frost and Mrs. Rutledge respectively. So far as known here no other lives were lost.

To Indict Indiana Lychemers.

Indianapolis, Ind., Jan. 9.—Attorney General Taylor arrived home Sunday from Scottsburg, where he has been in the effort to apprehend the members of the mob that lynched Marion Tyler, an Indianapolis man, a few weeks ago. Mr. Taylor has the names of the entire mob, and declares his intention of prosecuting them to the limit of the law. There are thirty of the guilty parties and thirty indictments and trials will follow soon.

No Alarm Over Scofield.

Madison, Wis., Jan. 9.—Gov. Scofield's condition is slightly improved. Exaggerated reports of his illness have been circulated, but his physicians and Col. Anderson, his secretary, say that he has nothing more than a severe cold on the lungs. The governor was up most of the day, Sunday, though unable to leave the house.

Montpelier, Vt., Jan. 10.—B. F. Field, in an interview Sunday, said he had not accepted the appointment as United States senator, and he will not give his answer to Gov. Smith's offer until he has fully considered it. He

SPAIN'S \$20,000,000 AWARD.

Amount Will Probably Be Carried in Regular Bill.

Washington, Jan. 9.—The payment of \$20,000,000 to Spain under the terms of the peace treaty is beginning to receive attention from members of the house committee on appropriations, and it is likely that the amount will be carried in one of the regular appropriation bills, probably the sundry civil. Chairman Cannon says, however, that the question has not been formally considered yet, as there has been no estimate submitted and no official information on the requirements of the case. Moreover, there is no desire to anticipate action on the treaty, and until it is ratified the house is hardly in a position to carry out this provision as to payment. In the event of ratification, however, speedy action will be necessary.

The treaty provides that the payment shall be made "within three months after the exchange of ratifications," and another provision requires the exchange of ratifications within six months from the date the treaty was signed, viz.: Dec. 10 last. This would bring the payment before the next session of congress, so that the appropriation must be made at the present session.

Wellington Agrees Treaty.

Cumberland, Md., Jan. 9.—United States Senator Wellington has come out emphatically against the peace treaty as it now stands. He said that he would ask for an amendment to the treaty striking out the ceding of the Philippines. He thought the Spaniards and Filipinos should fight it out between themselves.

VIEWS OF SENATOR HOAR.

Massachusetts Statesman to Speak Against Expansion.

BUSY WEEK FOR THE SENATE.

Probability That the Peace Treaty Will Be Reported Wednesday—Bill for Reorganization of the Army Is Held Back.

Washington, Jan. 9.—The week promises to be a busy one in the senate. It will begin with an elaborate speech by Senator Hoar in opposition to the extension of American territory. Tuesday Senator Mason will discuss briefly his anti-expansion resolution, taking strong ground for the independence of Cuba and the Philippines. Senator Morgan will make an effort early in the week to get the senate to name a date for taking a vote upon his bill for the construction of the Nicaragua canal. Whether he succeeds or not, he will press the bill as hard as circumstances will permit. Unanimous consent, though, is necessary to the fixing of a time for a vote, and it is not probable that this will be secured for some time to come.

It is the expectation that the peace treaty will be reported Wednesday, and also that some of the bills now in the hands of the committee on appropriations will be brought in toward the close of the week. It is possible that the beginning of the debate upon the treaty may be postponed until next week.

Perhaps the most important single measure before the house is the bill for the reorganization of the army. The illness of Chairman Hull of the military affairs committee will delay consideration of this measure until he is sufficiently recovered to attend the sessions of the house. His illness will also delay the military academy and army appropriation bills. Meantime the friends of the navy personnel bill are pushing for its consideration and the rules committee may give a day to it during the present week.

The final vote on the legislative, executive and judicial appropriation bill will be taken today. The opponents of the civil service law succeeded in striking down the bill, while the house was in committee of the whole, the appropriation for the maintenance of the commission. But when the vote is taken in the house, where members are obliged to go on record, there is little doubt that the appropriation will be restored.

The diplomatic and consular and the naval appropriation bills are the next budgets to be taken up, and either or both of them may be considered this week. Such time as intervenes will be consumed in the consideration of the bill for the codification of the laws of Alaska.

A Famous Cork Room.

The famous cork room that has been for ten years one of the attractions of New York City is about to be destroyed. The walls and ceiling of the room are covered over in an artistic manner with champagne corks, no fewer than 40,000, representing 30,000 quarts and 10,000 pints, being used in the decorations. There has been more champagne than this consumed in the room during the past ten years, but large quantities of the corks had to be thrown away, so as not to mar the artistic effect of the 40,000 used in decoration. The corks are affixed to the ceiling and walls by felt and sealing wax.
